

SENTINEL TRAINING GROUP LLC PRESENTS

Designed with the next generation of law enforcement in mind, this course provides an introductory look into the art of proactive policing. In this rapidly moving course, students will learn about the concept of criminal profiling, a skill all good cops possess, and how to distinguish it from biased-based policing, a practice no law enforcement officer should participate in. Students will learn the basics of commonly encountered offenses against society, gain an understanding of the foundations necessary for complex investigations, and examine solutions to mistakes commonly made by proactive officers.

About the Instructor

Caleb Bruce McCollum is a Senior Corporal with the Dallas Police Department, where he has served in the Gang Unit, Crime Response Team / Deployment Unit, the Honor Guard, and as a Field Training Officer.

An experienced and proactive investigator, McCollum specializes in disrupting criminal activity through physical and digital surveillance, search warrant preparation, detailed arrest documentation, gang intelligence, and operational planning and execution.

Recognized with numerous commendations and awards, McCollum now focuses on sharing his knowledge to help the next generation of officers operate safely and effectively while combating the criminal enterprise.
